PROFILE

Empathetic **user experience** advocate with senior **software engineering** experience and an **electrical engineering** foundation. Builds **AI-driven** architectures and leads design initiatives that drive acquisitions and business outcomes.

STRATEGIC IMPACT & PROJECTS

PRODUCT LAUNCH & AI ECOSYSTEM OWNERSHIP EDTHENA	Co-led the launch of **AI Coach** (Vue 3 migration) and own **Observation Copilot**—frontend architecture, prompt engineering, and LLM analysis. Led adoption of **agentic development workflows**; drove legacy architectural migrations.
BRAND FOUNDATION & DESIGN SYSTEM OLAKAI	Bootstrapped company **branding** and a **Figma design system**, mapped to the existing **component architecture**. Drove **UX innovation** in early **AI application** market.
PRODUCT SCALING & ACQUISITION LIVECLICKER	Championed UX for **VideoEmail** and **RealtimeEmail**, central to the company's **successful acquisition**. Led a **Vue** migration from legacy systems and built a drag-and-drop enterprise report builder.
